CRISP
CENTRE FOR RESEARCH AND INDUSTRIAL STAFF PERFORMANCE

“ VISION

To become a preferred destination for training and consultancy services in advanced technologies with global outreach.

”

MISSION

To provide high-quality training in advanced technology areas, consultancy, and job work services aimed at making the industry and technical workforce competitive in global markets through competence enhancement and improved employability prospects.

CHAIRMAN'S MESSAGE

CRISP will play a leading role in achieving the goal of self-reliant (Atmanirbhar) Madhya Pradesh through Skill Development, Employment, Self-employment, and Capacity Building.

Dr. Mohan Yadav
Chairman CRISP &
Honorable Chief Minister,
Govt. of Madhya Pradesh.

MANAGING DIRECTOR'S MESSAGE

CRISP a success story for more than 25 years has earned a name and reputation not only in the state but nationally & internationally. I would like to take this opportunity to thank all our stakeholders for contributing to our success and look forward to their continual support in building Atmanirbhar Bharat.

Dr. Shrikant Patil
Chairman (Exe. Board)
Managing Director (CRISP, India)

Emergence of CRISP

....a dream to drive training as a powerful tool for empowering people by enhancing their productivity and performance.

.....a dream to revolutionize life through skilling, using cutting-edge tools & technologies and best practices.

The outcome was the establishment of a hi-tech training centre - an institute set up as an autonomous body, under an Indo-German Technical co-operation agreement in the year 1997, wherein, the Department of Technical Education & Skill Development, Government of Madhya Pradesh (M.P.) & German Technical co-operation (GTZ) were the implementing partners.

Thus came into existence, the "Centre for Research and Industrial Staff Performance (CRISP)", with a clear objective of capacity building and skill development of personnel from Industries, Corporate, Government, Job-seekers, Students and Unemployed youth. CRISP became one of the premier institutions to have been awarded the ISO 9001 Certification, way back in 2001.

The Institute has world-class facilities and expertise in the field of industrial automation, manufacturing technologies and information technology that draws learners across sectors, from all over India and overseas.

*It started with a dream.....
to unleash the potential of men & machines*

Governance

CRISP is governed by a Board, having representation from the Government, Industries, Academic Institutions and German Partners. As an autonomous body, it has the freedom to frame its own charter.

Infrastructure

Located in central India, CRISP is headquartered at Bhopal, with a built-up space of more than 100,000 sqft., and has affiliated centres& academies at several national and international locations.

CRISP is proud to be associated with technology partners and OEMs like Siemens, CISCO, Oracle, Volkswagen, Crompton Greaves, Lucas Nulle, Festo, and Allen Bradley, to name a few.

Services

CRISP offers end-to-end Services in the following domains:

- Industrial Training
- IT Consultancy & Software Development
- Skill Development & Vocational Training
- Tool Room & Production Services

Industrial Training

Armed with a regularly-updated competency-mapped curriculum; state of the art technology; hands-on practice, industry-experienced trainers with domain expertise, a favorable learner-trainer ratio, solution-based approach, and high-level of customization, CRISP offers its clients, the “best-in-class” performance-based industrial training in:

Electrical / Electronics / Instrumentation:

- PLC Programming & Applications
- SCADA / MMI
- AC/DC DRIVES
- Electronics Maintenance
- Electrical Control & Relay Logic Applications
- Transformer & Switchgear Maintenance
- Field Instrumentation
- VLSI and Embedded System Design

Mechanical / Production / Automobile:

- Mechanical Maintenance
- Industrial Hydraulics
- Industrial Pneumatics
- AutoCAD & CAD/CAM
- CNC Turning & Milling
- Welding Technology
- Refrigeration & Air-conditioning
- Car Mechatronics

IT & Multimedia:

- CISCO, Oracle, Dot Net Technology, JAVA, Cloud Computing, Tally, Android Applications
- Multimedia Presentation Development, Graphic Designing, 2D & 3D Animation, Digital Still Photography, Digital Sound Editing, Film Editing, Visual Effects and Film Production

Civil & Architecture and Design Areas:

- Revit Architecture and 3ds Max
- Interior Design, Fashion Design, Garment / Textile Design

Behavioral Sciences:

- Behavioral & Soft Skills Training which focuses on developing Leadership Skills and a "Happy Mind-Set"

IT Consultancy & Software Development:

Accredited with CMMi Level 5 Certification, CRISP works ahead of schedules, delivering 24x7 services to its clients; offering client-focused services and consultancy across many verticals in Application Software Development, Web Solutions, e-Commerce, e-business solutions and System Enhancement Services, with expertise spanning a range of leading technology platforms which includes Oracle, Microsoft, SAP and open source connectivity.

The IT manpower pool comprises qualified & talented software professionals delivering sophisticated software solutions to Government Departments and Corporate at the National and International levels.

The major IT Solutions:

Skill Development & Vocational Training

Over the years, CRISP has emerged as a pioneer in planning and implementing Vocational Skill Development Projects for women, socially disadvantaged and physically challenged sections of society.

International models of vocational training from Germany & other countries, the experience of working with industries, well-equipped labs and sound project management, make CRISP a preferred destination for skill development schemes by the Government and the corporate sector, for CSR initiatives.

CRISP is empaneled with the National CSR Hub, Tata Institute of Social Sciences (TISS) in the areas of Skill Development and Vocational Education & Training.

CRISP is also registered as an Implementing Agency Hub with the Indian Institute of Corporate Affairs (IICA) Department of Public Enterprise, Ministry of Corporate Affairs, and Govt. of India.

The Centre provides consultancy services in setting up Skill Development Centres; offers services exclusively for ITIs for capacity building, infrastructure up-gradation, hand-holding and management.

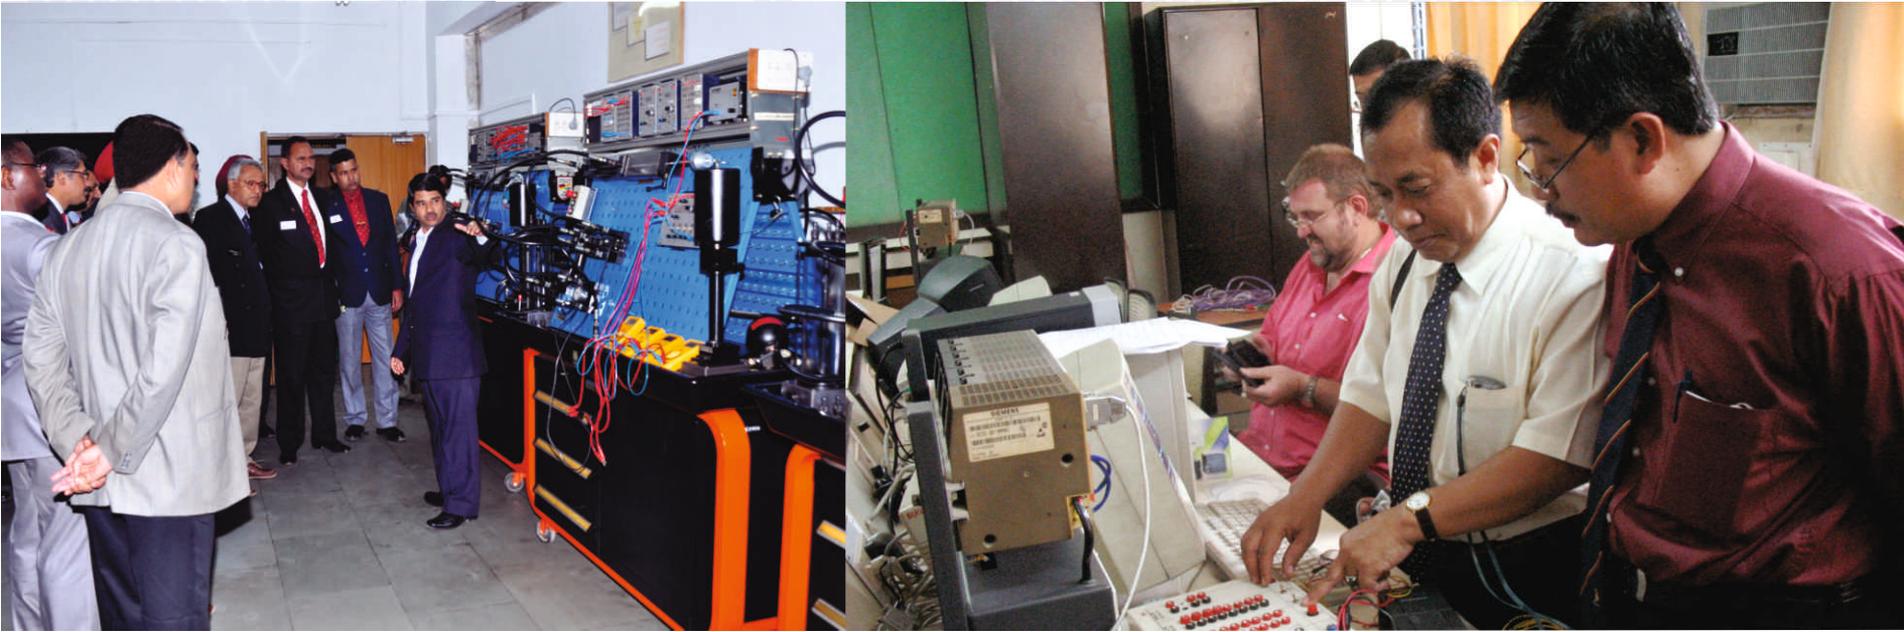

Training cum Production Centre

CRISP provides services in the design & development of press tools, moulds, jigs & fixtures, precision machining, three-dimensional modeling and measurement system using hi-end tooling: state-of-the-art equipment and facilities, which include CNC machines, EDM Wire Cut, CMM, CAD/CAM Software, etc.

Precision job work and an on-time delivery always remain the hallmark of its services, which make CRISP the preferred service partner for over 100 small, medium and large enterprises.

Key assignments include Import substitution for machining of the superconducting magnets from CERN Switzerland, Consultancies to Process & Power Plants, and Critical Machining Services for Defence Sector and other Manufacturing Industries.

Credentials

- Network of around 700 delighted clients from Industries, Central and State Government, Academia and International Developmental Organisations.
- Trained more than 300,000 personnel on need-based training modules, designed in consultation with International experts and Industries.
- Preferred destination by the Defense sector which includes the Indian Navy, Indian Coast Guard, Naval Dockyard, DRDO, and Director General of Resettlement. Trained more than 7000 personnel from this sector.
- Considered as a nodal Institution by the Central & State Govt., for capacity building and developing IT literacy & e-Governance Skills of their staff through training programmes.
- Identified by the Ministry of Labour (DGET) as a nodal agency for the Capacity Building of 900 ITI Principals and Staff from 15 States, under its scheme - "Up gradation of 1396 ITIs under PPP".
