

About CRISP

CRISP is established under the Indo-German Technical Cooperation Agreement as an autonomous organization of the Dept. of Technical Education, Skill Development & Employment, Govt. of M.P.

CRISP provides technical training and consultancy services for Industry Personnel, Government Officers, Faculties of Academic & Training Institutions, Students & Jobseekers. CRISP is equipped with the state-of-the-art labs & technology, latest software, qualified, trained and experienced trainers in the relevant fields.

The Multimedia Centre

The Multimedia Centre offers multiple Professional Certification programs in the Media & Entertainment Sector. The largest infrastructure in central India has five modern labs. They focus on areas like Photography, Cinematography, Graphic Design, Audio/Video editing, Animation, VFX Film Production, BIM, and Architecture Modelling.

The labs are well-equipped with a 4K film editing workstation and Digi-Beta output. They have the latest mirror less photography camera and lenses. There is also a 4K/60 FPS cinematic camera, gimbal, and slider. The indoor studio features chroma backgrounds and studio lights or soft Boxes. This setup provides hands-on experience for the trainees.

Other training programmes in Multimedia offered at CRISP are :

- Graphic Designing
- Digital Still Photography
- Non-Linear Video Editing
- Special Effects and Compositing (VFX)
- Professional Certification in Film Production
- 2D Animation
- 3D Architectural Design and walk-thru

Non Linear Video Editing

Duration: 03 months

...unleashing the full potential of men & machines

NON LINEAR VIDEO EDITING

Introduction of Course

Working on a Non-linear Video Editing system involves the process of assembling the cinematographer's video footage logically, in accordance to the script, there by creating your own movie with the director's point of view.

With the exponential growth of Media & Entertainment Industry, the demand for Film & Video Editors have equally increased, throughout the country.

After completion of this training and with an impressive show-reel, our trained video editors can find job opportunities in electronic media & film production studios, advertising & multimedia content development organizations and online news portals too! These editors can work in motion graphics studios and can even establish their own production house. Many of the video editors in metro cities work on freelance basis or on project based contract. You can be one of them, a skilled professional of great demand, in the media industry.
